TV4 just hit the oldest bug in production pipelines.

The final cut of The Challenge is gone.

The premiere just slipped to 2027.

- Headlines say an AI agent deleted it
- TV4 only confirms a 'technical failure'
- Developers in the discussion are split on which it was

The real bug is untested backups.

Where have you been burned by one?

Save this for your next backup review.

- Cheap storage without versioning invites this
- Nobody restores until it's too late
- One engineer in the discussion: 'AI or not, it's a human's fault'
